

JUNE'S FUN FINDS

NATURE FRIENDLY PRODUCTS

Nature Friendly Products' 100% biodegradable and compostable tableware provides consumers with an eco-friendly alternative to traditional disposables. Made from sugarcane bagasse*-based renewable resources, they are completely compostable within 50–100 days in home and commercial composting facilities. These products are superior in strength and performance—nontoxic, hot/cold tolerant, oil and water resistant, cut resistant, microwave and freezer safe.

SASSY COW CREAMERY

Milk doesn't get any fresher than Sassy Cow. The Baerwolf brothers, James and Robert, opened Sassy Cow Creamery in mid-April, next to their dairy farm. Two things set their products apart. One is that you can buy their milk the same day it came from the cow. The other is that they maintain two separate herds to produce regular and organic milk. They currently produce regular, strawberry, and chocolate milk, and they just added ice cream. Butter and heavy cream are to follow shortly. Buy at their retail store or at selected retailers. Their hours are 10 a.m. to 7 p.m. Monday through Friday, 8 a.m. to 5 p.m. Saturday, 10 a.m. to 4 p.m. Sunday.

QUICKSEALS

One of the challenges after a picnic is packing up those bags of pretzels or chips. You can clip the bag shut, but there's always a good chance the clip will get knocked off during the trip home. QuickSeals' new food baggie storage system keeps snacks safely sealed. All you have to do is peel and stick the QuickSeal to the top of your bag of chips and it becomes a zipper-top bag that seals and unseals. They are light and flat so you can toss a few in your picnic basket and you're always ready to go. They work great on frozen foods too. QuickSeals are currently available at select Wal-Mart stores or online.
